Entrust Genuine Supplies

For Sigma DS1 and DS2 Card Printers

HIGHLIGHTS

Ribbons, printheads, and cleaning supplies

Only genuine Entrust supplies will ensure you get the most out of your Entrust Sigma DS1 and DS2 Card Printers.

Entrust supplies are manufactured and tested against industry standards, as well as proprietary test protocols established by our in-house materials development experts. Robust performance standards ensure the quality and consistency of Entrust supplies, guaranteed.

KEY FEATURES & BENEFITS

Superior quality, proven performance

- Card print quality emulates your on-screen colors for vibrant color and sharpness
- Print resolution of up to 300 x 1200 dpi allows you to print fine details of small text, detailed designs, and quality bar codes
- Printer driver automatically adjusts settings to match ribbon type for maximum image quality
- Innovative ribbon conservation and consumption tracking with notifications when supply is low for upcoming ribbon replacement

Genuine Supplies for Sigma DS1 and DS2 Card Printers

Convenient, cost-effective operation

- Built-in technology conserves ribbon usage, reducing waste and saving you money:
 - Panel ribbons save one complete panel set during each initialization
 - Monochrome ribbons use only material length needed for the specific card design, for significant yield savings
- Convenient ribbon types for use in simplex or duplex applications
- Automatically notifies you when supply is low and it's time for ribbon replacement
- Print ribbon kits include a ribbon, isopropanol cleaning card, and an adhesive cleaning roller for easy loading onto the provided ribbon cartridge
- Optional prefilled ribbon cassettes make switching ribbons easy

Unmatched security

- Entrust supplies utilize state-of-the-art RFID encryption technology, ensuring printer to supply communication, and authentication for assured uninterrupted supply use. This enables innovative features for customer ease-of-use and high print quality optimization
- Specialty ribbons let you add UV fluorescence or luster color to cards as low-level security elements or decorative embellishments

Eco-friendly

In support of fostering a sustainable future, Entrust maintains compliance with global environmental regulations while striving to reduce our impact on the environment.

- Ribbon cores are made with a biodegradable material
- Packaging is biodegradable, made from 100% recycled material, and printed with soy inks
- Entrust is an ISO 14001 Certified company
