

DATACARD® TRUCREDENTIAL™ ENTERPRISE SOFTWARE

YOUR PROGRAM, YOUR CHOICE

The Datacard® TruCredential™ Suite offers an edition that's just right for you — whether you're just starting a credential issuance program or need to grow your current capabilities.

Basic, secure ID card issuance

- *TruCredential Express software:* Basic photo capture and data import, credential designer, and drag-and-drop workflows for a single-user environment.
- *TruCredential Plus software:* Signature capture, DSLR camera support, report capabilities, composite field support and SQL server support.

High-assurance credential issuance

- *TruCredential Professional software:* Smart card support, decentralized data capture, centralized data management, Microsoft Active Directory integration support, Oracle database support and document scan capture support.
- *TruCredential Enterprise software:* Additional PACS and access control system integration support, PeopleSoft HR system integration support and higher scalability up to hundreds of user stations.

A True Enterprise Solution for Protecting Your People and Premises

For sophisticated design capabilities, smart card issuance and seamless integration with access control and HR systems, turn to Datacard® TruCredential™ Enterprise software. With data-driven production, pre-built smart card configuration, drag-and-drop workflows for configuration, credential design templates and reports, this is the most comprehensive edition in our software suite. Capable of accommodating hundreds of user workstations, this software provides the capabilities you need to issue highly secure credentials to help you protect your people and premises.

Comprehensive enterprise solution. Capable of accommodating multiple workstations, users and records, TruCredential Enterprise software includes pre-built integration with access control systems and HR systems. It also supports document scan, photo and signature capture devices. A system dashboard provides printer status across the enterprise including online/offline status of your printers.

Complete support. Get technical support and access to critical upgrades to keep your program on track with our Software Maintenance Agreements (SMAs). You'll have automatic access to new features and upgrades that come with each release while reducing your long-term costs with regular software updates.

Powerful, user-friendly platform. This next-generation credential software integrates the best of our global software lines into one intuitive, modern, web-based platform. With pre-configured card design, smart card configuration and workflow templates, you can personalize, manage and print high-assurance credentials with complete confidence.
