SYSTEM REQUIREMENTS

Operating system: Microsoft Windows 7 / 8.1 (32-bit or 64-bit)
Web browser: Internet Explorer v10 or v11
Memory: 4 GB (8GB recommended)
Hard Drive: 1 GB of computer drive space
Screen Resolution: 1360 x 768

TRUCREDENTIAL STANDARD FEATURES

- Credential Design
- Front and back card design, pre-designed card templates
 - Variable/static text field, photo graph field, variable/static graphic field, date field
 - QR code, magnetic stripe code, bar code support
- Workflow
- Text field, static text field, static graphic field, date field, print count field
 - Auto-sequence field, check box field, List field
 - Text field mask, field option – read only, hidden, mandatory, searchable
- Database & Data Import
- Import data from SCV, ASCII file, import data from Microsoft Access database
 - Text field, Static text field, Static graphic field, date field, print count field
- Photo Capture
- File input, TWAIN, Microsoft Video for Windows
- Languages Support
- English, French, German, Japanese, Portuguese (Brazilian), Simplified Chinese, Spanish

DATACARD® TRUCREDENTIAL™ SUITE

PROTECT WHAT’S IMPORTANT TO YOU

Our integrated approach to issuance and management software, the Datacard® TruCredential™ suite allows you to leverage core technologies across various credential types and applications to meet the unique needs of your program — whether you’re serving citizens, consumers, students or employees.

Applications include:

- Student, faculty and visitor IDs
- Employee, contract and visitor badges spanning small to large organizations
- Patient and staff healthcare IDs
- Credentials for local government programs
- Membership and customer loyalty cards, transit passes

Design, Issue and Manage Credentials — Anywhere, Anytime

For organizations large and small, the Datacard® TruCredential™ suite is the easier, intuitive solution for creating, issuing and managing secure IDs and credentials. This powerful software suite — complete with next generation technology — empowers organizations to meet a wide range of application requirements, from basic photo IDs to high-assurance credentials. Designed to meet your needs today and set a solid foundation for the future, it offers a series of feature-rich editions and an enhanced user experience. With TruCredential suite, you can easily scale from a single workstation or user to a multi-workstation, enterprise-wide application with more functionality and less complexity.

Simple Start-Up. Get up and running faster with pre-configured credential design templates, workflow templates for card configuration, capture screens for easy enrollment and data capture. Plus, pre-built support for desktop printers and capture devices empower you to run your credential program with complete confidence.

Powerful User Experience. This web-based software offers a modern approach to the user interface. An intuitive step-by-step set-up and workflow makes it easy to operate, design, print to any device and add multiple users.

Scalability as Your Needs Grow. A true future-ready technology platform, the suite grows, adapts and improves with you. Our dedication to providing updates and continuously improving our software gives you the tools you need to succeed.

Enterprise Interfaces. Built based on best practices and industry standards, this suite optimizes your entire credential issuance process by providing pre-built integration with access control and HR systems.

NEXT GENERATION
ID SOFTWARE

To develop TruCredential suite, we integrated our proven global software products into one modernized platform. This easy to operate software delivers all the tools you need to design, issue and manage life’s important credentials — enrollment and data capture capabilities, credential design, workflow tools and enterprise interfaces.

INTUITIVE ISSUANCE

Simplify your program’s set-up with the easy-to-use credential designer and workflow designer along with the pre-built workflow templates. Then capture enrollment data and issue credentials with confidence. Whether you capture and issue credentials on a single workstation or multiple workstations, TruCredential suite streamlines the data management process.

TRUCREDENTIAL CAPABILITIES

CENTRALIZED
DATA MANAGEMENT

With TruCredential suite, all the information you need regarding enrollees in your program is right in one place. Centrally manage credential designs, workflow templates, printer configurations, distributed user access and permissions — while still allowing data capture and other functions from distributed locations.

COMPREHENSIVE
SUPPORT

Our Software Maintenance Agreements (SMAs) provide the expert technical support you need as well as access to critical upgrades to keep your ID program on track. With agreements available for both new SMA customers and those with current SMA agreements, you’ll be assured a positive transition from your current ID software to TruCredential suite.

With our SMAs, you can reduce your long-term costs by taking advantage of regular software updates instead of purchasing new software when the previous version is no longer supported. Plus, you’ll automatically get the new features and upgrades that come with each software release.

KEY ADVANTAGES

EFFICIENT ENROLLMENT
& DATA CAPTURE

Capture the physical and logical data you need to create a secure credential. With TruCredential™ suite it only takes a few simple steps to enroll and establish a trusted identity with all of the right elements captured.

CREDENTIAL
DESIGN

Creating a format for your credential design is easier than ever. Drag and drop the right identity elements, customize the fields and develop unique designs based on pre-built templates.

PRE-BUILT
WORKFLOWS

Save time and take the guesswork out of configuring your issuance program. TruCredential™ suite features embedded workflows that allow users to get up and running faster.

SMART CARD
SUPPORT

Simplify smart card personalization management with pre-built support for leading smart cards.

FOUR POWERFUL EDITIONS. ONE COMMON PLATFORM.

TruCredential EXPRESS

Take your first step into the world of ID card designing and printing with the entry-level TruCredential EXPRESS.

TruCredential PLUS

This software builds on the functionality of TruCredential EXPRESS to provide the fundamental tools for essential ID card and credential designing and printing.

TruCredential PROFESSIONAL

Get even more capabilities with this highly scalable edition that builds on the functionality of TruCredential PLUS to meet most needs.

TruCredential ENTERPRISE

The most advanced, scalable, enterprise-wide credentialing software in the suite, this edition includes all previous edition features plus sophisticated design capabilities for ultimate program flexibility. It also integrates with access control and HR systems.
